CIRCULAR: 13/28

SUBJECT: Nomination of Country Editors for the Pacific Climate Change Portal

Dear Focal Points,

Greetings from Apia. As you may be aware SPREP is currently coordinating the development of the Pacific Climate Change Portal (www.pacificclimatechange.net). Please refer to Attachment 1 for background information on the portal.

On 6th to 8th November 2012, SPREP held its first portal workshop in Suva, Fiji and on 19th – 21st February 2013 SPREP held its second portal workshop in Pohnpei, Federated States of Micronesia (FSM).

Participants to both regional workshops were nominated by the official focal points of SPREP in our member countries.

One of the main objectives of these workshops is to identify "Country Editors" who will primarily be responsible for updating their country's climate change information on the portal. These include updates to the calendar of events for national events, uploading of national policies and other relevant documents, uploading multimedia material like videos and images and most importantly contributing to information in their country profiles. As covered during the training workshop, all uploaded material will require approval from the national climate change focal point before actual upload.

The Secretariat would be grateful if you could nominate 2 officers from your country who have attended the portal training workshop in Fiji or FSM to be the nominated officers who will contribute national updates to the portal. In addition to the periodic updates to their county climate change information, Country Editors will be required to attend refresher training workshops funded by the Secretariat.

Please find attached for your perusal, the participants list for the two workshops mentioned above.

We would be grateful if all nominations could reach us by the 17th of May, 2013. Please send all nominations directly to Makelesi Gonelevu, Knowledge Management Officer email: makelesig@sprep.org

Yours sincerely

Sefanaia Nawadra
Officer in Charge
