SUBJECT: Introducing Mr. Sunny Seuseu, Climate Prediction Services Coordinator

SPREP is pleased to announce the following appointment within the Secretariat:

Mr. Sunny Seuseu has been appointed to the position of Climate Prediction Services Coordinator (CliPSCo). Sunny is a national of Samoa and holds a Bachelor Degree in Science from the University of the South Pacific, Fiji as well as a Diploma in Government, Project Management from Victoria University, Melbourne, Australia. He joins SPREP from the Samoa Meteorology Division within the Ministry of Natural Resources and Environment (MNRE), where he has been working as the Head of Climate Services and Seasonal Climate for the last seven years. He has also worked within MNRE's Planning and Urban Management Agency (PUMA) Division as Senior Sustainable Development Officer. Sunny is married to Agaitumua with one daughter. He started official duties on **Monday, 30th March 2015.**

The Climate Prediction Services Coordinator position exists to coordinate the Republic of Korea-Pacific Islands Climate Prediction Services (RoKPI-CliPS) Project. The role also contributes to achieving relevant targets in SPREP Strategic Plan and the National Meteorological and Hydrological Services (NMHSs) priorities as set out in the Pacific Islands Meteorological Strategy (PIMS) 2012-2021 and build the existing capacity of the NMHSs. This position is funded by the Government of the Republic of Korea through the Pacific Island Forum Secretariat (PIFS).

We welcome Sunny to SPREP and look forward to this position increasing relevant support and services to the region.

Yours sincerely,

David Sheppard
Director General
