SUBJECT: **Launch of new SPREP Website**

Dear Members,

This year we are commemorating 25 years of SPREP's work in the region with our Members and partners working together to protect and improve our Pacific environment. To celebrate this special milestone, I am pleased to advise that on Friday 8th, June 2018, Samoa time, we will be launching our new SPREP website as illustrated below on the www.sprep.org address.

The new website improves upon the current popular SPREP website with a new look and advanced features. It is built on an advanced Content Management System incorporating a mobile ready, responsive design which makes web pages to render well on a variety of devices and window or screen sizes. Additional functionality have been built into the site to allow increased sharing of stories on social media channels and improve content searches and discoverability.

We thank you for your valuable feedback on the current website over the past year through surveys and evaluations paved the way in designing this new website.

Notable aspects of the new website includes its ease of use with the new and improved layout for easy navigation, web accessibility features, faster page load times as its built for speed by optimising images and use of technological solutions to minimise delays.

As with any new system, we anticipate there may be some issues, broken links to articles and so forth and for this we apologise in advance.

We do kindly request that these be reported to our developers by using the "FEEDBACK" button at the bottom right of the website or by emailing sprep_it@sprep.org as we continually work towards improving your online experience with SPREP website.

I look forward to your ongoing interest in the work of SPREP in the next 25 years and participation in commemorating our work together in the past 25 years.

Yours Sincerely,

Stuart Chape
Acting Director General
